## WORK EXPERIENCE

---

### Web Developer

2022

Devmountain Student Developers

- Design and created several websites from start to finish using current technologies and design trends while optimizing content for mobile and cross browser performance
- Collaborated with several teams to optimize user interface experience
- Used components to develop websites which consumed various APIs to display information
- Diagnosed and debugged technical errors, resolving code errors, which helped improve build time and performance
- Integrated SASS, CSS, Figma and Canva for website styling

2013-2022

### eCommerce Executive

Coco Irie

- Managed and confirmed orders on domestic and global eCommerce marketplaces ( Amazon, eBay, Macari, Poshmark)
- Led the content creation, listing and advertisement of products across all marketplaces
- Developed sales strategy for existing inventory and new product launches
- Forecasted sales trends, sourcing and valuation of goods, insurance claims and provided superior user experience

### Logistics Coordinator

2011-2020

Nordstrom

- Utilized inventory and logistics management software to scan, process, and research cartons in accordance with inventory control solutions
- Collaborated with domestic and global shipping vendors to fulfill customer orders in a timely manner following quality standards
- Demonstrated knowledge in supply chain web technologies and application tools
